

## MATTRESS CARRIER/LOGISTICS TROLLEY

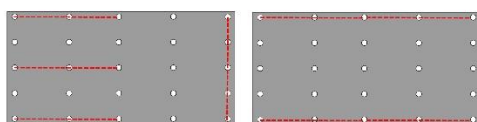

400 KG

Allows the transport of mattresses and sports mats of different sizes thanks to its adjustable side panels. Can also be used as an order picking trolley for positioning large packages. The non-staining wheels are ideal for party halls or sports halls.

- Robust frame made of welded square tube with reinforcements along the entire length of the table top.
- Loading rollers on both sides of the trolley for easy sliding of loads.
- Melamine top, thickness 16 mm.
- Delivered with 4 removable sides made of  $\varnothing$  28 mm V-shaped tube for an optimised load-bearing capacity of 800 to 1200 mm. Several configurations are possible depending on their layout.
- Can also be used as a large rolling table.
- Stackable bases for more storage space.
- 2 fixed wheels + 2 swivel wheels with brakes, mounted on ball bearings, non-marking and silent. 50% less starting effort. Complies with the EN 1757 standard.
- Delivered assembled.

Possible side panel combinations

Reference	Tray dimensions mm	Usable height of sideboards	Overall dimensions L x W X H mm	Wheel $\varnothing$ mm	Bandage	Weight
800 007 640	1960 x 1000	800 à 1200	2020 x 1020 x 1450	160	TPE	63

## OPTION

802 007 641 - Additional side panel.
